Silver Eagle Manufacturing Company Announces New Climate Regulated Cargo Trailer

Portland, Oregon (8/6/09) - Silver Eagle Manufacturing Company, the leader in military trailers, has announced its latest product—the Climate Regulated Cargo Trailer, or CRCT.

Developed jointly with Amtech LLC, the CRCT is easily towed behind an HMWV, or any light tactical vehicle, and features 118 cubic feet of insulated interior space, a durable stainless steel floor, available custom racking, and a maximum payload capacity of 1,500 lbs.

The CRCT uses a highly reliable Thermo King refrigeration system, already extensively used by the government and provisioned world-wide, with several available options for electrical current consumption. The CRCT has 6" of foam insulation for excellent efficiency, and with the use of an optional bulkhead wall, thermostatically controlled fans can create both frozen and refrigerated holding areas with temperatures as low as -10 degrees Fahrenheit.

-- more --

The “air transportable” CRCT rides on a version of the rugged, proven Silver Eagle Manufacturing Company LTT-HC Heavy-Chassis off-road trailer platform with riveted aircraft-grade aluminum construction and a durable independent torselastic shock-mounted suspension system.

The CRCT has four insulated doors attached with extra heavy-duty ¼" hinges with aluminum backing for easy access and outstanding durability. Other amenities include an exterior-mounted thermostat display, a heavy-duty fiberglass body, and an integrated aluminum superstructure.

The CRCT is built to the highest quality standards, and will provide exemplary service in severe-duty environments. Plus, it has the lowest maintenance costs in the industry.

About Silver Eagle Manufacturing Company

Silver Eagle is the global leader in military trailers and material handling solutions behind the prime mover. Silver Eagle has been in business for over 73 years serving the needs of the military and over the road trucking fleets.
