

they still look like new

"The Silver Eagle VA dolly has proven to be a high performing, low maintenance cost product. Driver acceptance has been particularly positive. Silver Eagle is an innovative manufacturer and their people highly responsive to our needs." - Jim Raynor

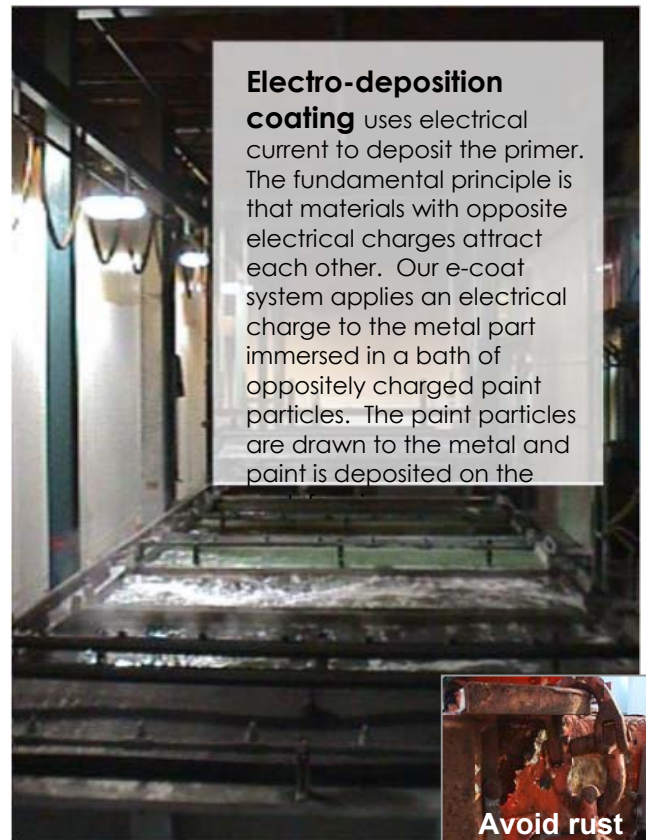

Watkins Motor Lines, Inc.

- ❑ Finish lasts 400% longer
- ❑ Stops rust migration
- ❑ Better fleet appearance
- ❑ Superior corrosion resistance
- ❑ Reduces re-painting cost
- ❑ The only E-coated dollies

"... we have had them in our system for over 5 years and they still look like new."

- Larry Schultz

Motor Cargo, Inc.

Electro-deposition coating

uses electrical current to deposit the primer. The fundamental principle is that materials with opposite electrical charges attract each other. Our e-coat system applies an electrical charge to the metal part immersed in a bath of oppositely charged paint particles. The paint particles are drawn to the metal and paint is deposited on the

Avoid rust
